Palembang, Sumatera Selatan

Profile

Results-oriented Informatics Management Graduate proficient in Fullstack Web Development and IT Support. Proven track record of developing efficiency-boosting information systems for educational institutions and managing IT infrastructure. Skilled in modern web frameworks (Next.js, CodeIgniter) as well as hardware troubleshooting, network configuration, and security system installation. Adaptable problem-solver seeking to leverage technical expertise in a challenging IT environment.

Experience

WEB DEVELOPER | POLYTECHNIC STATE OF SRIWIJAYA | FEB 2025 – PRESENT

- **Automated Honorarium System:** Developed a payroll calculation system for 300+ lecturers, automating complex calculations and reducing processing time by approximately 40% while eliminating manual errors.
- **Academic CMS Development:** Built a custom Content Management System for the Chemical Engineering Department to manage 50+ academic contents per semester and streamline faculty publications.
- **Internal Audit System:** Engineered a web-based whistleblowing platform to facilitate transparent and real-time internal reporting and feedback.

IT SUPPORT INTERN | DINAS KEARSIPAN PROV SUMSEL | AUG 2024 – NOV 2024

- **Archive Digitalization (OCR):** Spearheaded the development of a digital archive website featuring Optical Character Recognition (OCR), improving physical-to-digital document search efficiency with 85% accuracy.
- **National System Implementation:** Managed the data migration and input of 100+ incoming/outgoing records into the national "SRIKANDI" application, ensuring compliance with government archiving standards.
- **Technical Support:** Provided daily troubleshooting for 20+ workstations and peripherals (printers/scanners), ensuring high system availability for office staff.

IT SUPPORT INTERN | DINAS KEARSIPAN PROV SUMSEL | AUG 2024 – NOV 2024

- **Fullstack Development:** Delivered 10+ custom web and mobile applications for clients using CodeIgniter, Next.js, and React Native, handling everything from database design to server deployment.
- **Infrastructure Setup:** Executed end-to-end installation and configuration of IP CCTV systems for 20+ client locations, including mobile remote monitoring setup.
- **IT Operations:** Performed hardware upgrades (SSD/RAM) and OS maintenance on 50+ devices, significantly extending equipment lifecycle and performance.

Education

DIPLOMA (D3) INFORMATICS MANAGEMENT, POLYTECHNIC STATE OF SRIWIJAYA | SEP 2022 – AUG 2025

- **GPA:** 3.65 / 4.00
- **Focus:** Software Engineering, Database Management, System Analysis, Design.

COMPUTER AND NETWORK ENGINEERING, SMK NEGERI 8 PALEMBANG | JUL 2019 – JUL 2022

- **Final Score:** 88.00 / 100.00
- **Competencies:** Network Administration (Mikrotik), Computer Assembly, OS, Troubleshooting.

Technical Skills

- **Programming & Frameworks:** PHP (CodeIgniter, Laravel), JavaScript (Next.js, React.js, React Native), HTML5, CSS3 (Tailwind, Bootstrap).
- **Database Management:** MySQL, PostgreSQL, Relational Database Design.
- **IT Support & Networking:** Hardware Troubleshooting, CCTV/IP Camera Installation, Mikrotik Basics, LAN/WLAN Configuration, Windows OS, Linux Basics.
- **Tools:** VS Code, Git/GitHub, Microsoft Office Suite, Adobe Suite, Canva.

Soft Skills

- Analytical Problem Solving
- Rapid Adaptation to New Technologies
- Time & Project Management
